DID YOU KNOW?

- On entering the lobby of Jumeirah Beach Hotel, guests are greeted by a refreshing blend of essential oils that breeze subtly through the air conditioning system. The scent was created by a maître parfumeur in Grasse, France, the world capital of perfume. The lobby scent is a composition of lemon oils from Sicily, subtle jasmine and rose combined with delicate apple and peach tones
- The curved silhouette of Jumeirah Beach Hotel represents a breaking wave of the Arabian Gulf, on the shore of which the hotel is located
- The history of Jumeirah Beach Hotel goes back to the days of Chicago Beach Hotel - Dubai’s first resort-style hotel which closed in the 1990s. Ahead of its time in offering resort-style holidays, Chicago Beach Hotel is said to have helped pave the way for a tourism industry in Dubai. Today, Jumeirah Beach Hotel is located next to where Chicago Beach Hotel once stood
- A good night’s sleep will always be guaranteed, as all rooms have HYPNOS beds (that come complete with a Royal seal of approval from the Queen of England), presented with 400 thread count bedding to ensure the family’s complete relaxation after a busy day at the Kids Club, the pool or the beach
